Dear Dr. (Last Name),

Sharp HealthCare is proud to announce the opening of the **Laurel Amtower Cancer Institute and Neuro-Oncology Center**, a new, multidisciplinary program that is redefining the level of care for patients with brain and spinal tumors. The Center offers patients and their loved ones timely, personalized and highly specialized care by an integrated team of experts across the Sharp HealthCare system.

Program Highlights

- Patients are guaranteed an appointment with a physician **within 48 hours** of a request.
- The **expert clinical team** includes neurosurgeons, neurologists, radiation oncologists, medical oncologists, neuropathologists, and neuroradiologists.
- Physicians gather at a **specialized tumor board** to review patient cases and treatment plans.*
- Our physicians are specially trained in **state-of-the-art treatment techniques**, including real-time image guidance and intra-operative functional mapping, as well as stereotactic radiosurgery.
- Patients have access to **national clinical trials** that offer innovative treatment options.
- Our full spectrum of support services includes a **dedicated nurse navigator** to offer guidance and coordination of care services, **licensed clinical social workers** to help patients cope with the emotional aspects of their diagnosis, a **genetic counselor** who specializes in assessing inherited cancer risk, and **dietitians** to provide nutrition counseling and education.

Please call **1-800-82-SHARP** (1-800-827-4277) with referral questions. For more information about the program, contact our nurse navigator at 858-939-5205 or visit sharp.com/brain.
